fair?—CORNERED
Dear Cornered: It depends on how far in advance The Bore asks. If, in September he wants to book you for the May dance, tell him you don't plan that far in advance.

On the other hand, after the specific date of the dance is announced, you're stuck if he's the first one on the horn. If other fellows really wanted a

date badly enough they'd learn from experience that you're a doll who gets hooked early and they'd move a little faster.

Confidential to HANDSOME HARRY: Please don't send me your picture. I'm plenty busy turning out seven columns a week. I can't run a date bureau, too. Any guy who is as gorgeous as you say YOU are, shouldn't need outside help.

Are your parents too strict? You thousands of teenagers if you read can benefit from the experiences of ANN LANDERS' new booklet, "How To Live With Your Parents," enclosing a stamped, self-addressed envelope. Copyright, 1959. Field Enterprises, Inc.

with insured safety

You don't have to be a whiz at arithmetic to understand that 4% is one-third more than 3%. And at Great Western, your money currently earns 4% a year — the highest rate you can get on insured savings. Another thing, that high interest is compounded or paid — not just once a year, or even twice a year — but four times a year. Within three months you are earning interest on your interest, as well as on your original investment. That makes your savings add up in a hurry. You can open your Great Western account in no time at all. Mail us your check, money order or your present passbook — or just stop in at the nearest Great Western office and start your account.
